

## M470 & M471

### TISSUE CAPSULES

Made of polypropylene

These capsules are suitable for holding tissue samples during processing. The lids have a frosted write-on area for sample identification and an open mesh area to facilitate fluid exchange. The whole surface of the base is also an open mesh. The lid snaps securely on the base, eliminating the risk of tissue loss during processing.

Cat. #	Size (mm)	Color	Qty/Cs
M470	28 x 5 H.	White	1000
M471	38 x 10 H.	White	1000

## M460

### EMBEDDING RINGS

Made of high impact polystyrene

Embedding rings are suitable for holding and identifying tissue sample blocks and fit well in microtome chuck adapters. The etched writing surface on the ring is marked with an identification number and placed on top of the sample block. Additional paraffin is poured into the base mold to cement the ring onto the tissue block. The embedding ring securely holds the tissue sample in the microtome chuck adapter for sectioning and then identifies the sample while in storage.

Each case contains four dispenser boxes of 250 rings.

Cat. #	Color	Qty/Cs
M460	White	1000
M460-3	Pink	1000
M460-4	Green	1000
M460-5	Yellow	1000
M460-6	Blue	1000

## M480

### EMBEDDING CASSETTES

Made of acetal polymer

Disposable plastic tissue cassettes are suitable for holding and identifying tissue samples in processing, embedding, and sectioning procedures. The cassettes fit securely in microtome chuck adapters. They are molded from a high density polymer that is totally resistant to the chemical action of histological solvents. These cassettes are designed to accept standard metal lids and will keep specimens in complete safety during processing. The slanted writing surface accepts markings easily, permitting sample identification throughout all stages of embedding and long afterwards when in archives. **Cassette M480-1 is made of polypropylene.** M481 Metal Lid not included.

Each case contains three dispenser boxes of 500 cassettes.

Cat. #	Color	Cat. #	Color	Qty/Cs
M480-1	Clear	M480-7	Peach	1500
M480-2	White	M480-8	Tan	1500
M480-3	Pink	M480-9	Gray	1500
M480-4	Green	M480-10	Lilac	1500
M480-5	Yellow	M480-11	Orange	1500
M480-6	Blue	M480-12	Aqua	1500

These cassettes can be used in leading automatic cassette labeling instruments

## M481

### METAL LID FOR M480 CASSETTES

Cat. #	Description	Qty/Pk
M481	Metal Process Cover	25
