

## T500

### SAMPLE TUBES WITH INTERNAL THREADS

Made of polypropylene

Designed for storing and transporting biological material, these high quality screw cap sample tubes made of translucent autoclavable polypropylene. Tube with internal threads. Caps are supplied with a silicone washer, to ensure a positive leakproof seal at all temperatures. A 1¼ turn of the cap is sufficient to seal the vial. Since both closures and tubes are manufactured of the same material, they have the same coefficient of expansion to guarantee an equally secure seal both at room or at low temperatures. Will withstand temperatures from -196 °C to +121 °C. Only the round bottom tubes can be centrifuged up to 17,000g.

Order screw caps separately.

These leakproof tubes with silicone washer screw caps are tested at 20 PSI.

Cat. #	Vol. (ml)	Style	Size (mm)*	Qty/Pk
T500-1T	1.2	Self-standing	12.5 x 41	1000
T500-2T	2	Self-standing	12.5 x 49	1000
T500-4T	4	Round bottom	12.5 x 70	1000
T500-4AT	4	Self-standing	12.5 x 71	1000
T500-5T	5	Round bottom	12.5 x 90	1000

\*For size only, cap is included.

## T500

### SCREW CAPS FOR INTERNAL THREAD SAMPLE TUBES

Made of polypropylene

Caps are available with a silicone washer to ensure a positive leakproof seal at all temperatures. Caps and tubes are both made of polypropylene, providing the same coefficient of expansion, which further enhances the leakproof qualities of the vials at changing temperatures. The cap features a long skirt and a super-fast thread design allowing it to be removed or screwed on with a single turn. Autoclavable.

Specially designed silicone washer can be seen being compressed while cap is screwed on, a sign that a leakproof seal has been reached.

Caps only, with silicone washer

Cat. #	Color	Qty/Pk
T500 NOS	Natural	1000
T500 BOS	Blue	1000
T500 GOS	Green	1000
T500 LOS	Lilac	1000
T500 OOS	Orange	1000
T500 ROS	Red	1000
T500 WOS	White	1000
T500 YOS	Yellow	1000

THESE SILICONE WASHER CAPS WILL GUARANTY A POSITIVE LEAKPROOF SEAL AT ALL TEMPERATURES

## CUSTOM PRINTING

Simport has all the in-house facilities to offer custom high resolution screen printing using specially formulated inks bonding to many plastic materials.

Print measurements, ID blocks, corporate or institution name and address or any other information. We will even prepare the artwork for you.

For minimum quantities required, please call one of our Customer Service Specialists.
